1. Introduction

The Ontario Creates Magazine Fund is designed to increase the financial viability and overall business growth of the Ontario magazine media industry.

Funding will be provided to support projects that have clear, objective and measurable results and/or indicate direct and positive impact on the overall long-term business growth of the magazine publisher. Priority results include enhancement of publisher revenues and the creation/retention of jobs in the Ontario publishing industry. Ontario Creates will measure results of the program based on return on investment and jobs created and retained.

The Fund also accepts applications from publishers of digital-only magazines and will provide support for a limited number of digital magazines. Applicant Eligibility requirements are applicable to both print and digital publishers; please read the Eligible Magazine Titles section (pages 4-7) for specific requirements for digital magazines.

Ontario Creates values and supports diversity and gender parity at all levels and business roles within creative industries. We acknowledge that many communities continue to face systemic barriers, preventing them from participating meaningfully in these industries. Ontario Creates applies a lens of diversity, equity, and inclusion to the evaluation criteria for this program, and directs jury members to do the same.

Applicants proposing projects that support, reflect, and strengthen diversity and gender parity in Ontario are expected to tangibly demonstrate a genuine and sustained commitment to these equity-seeking communities.* Ontario Creates encourages applications from companies that are led by BIPOC (Black, Indigenous, or People of Colour) or Francophone individuals and applicants that otherwise meet the provincial definition of diversity.†

* Equity seeking communities are those that face significant collective challenges in participating in society. This marginalization may be caused by, but not limited to, attitudinal, historic, social and environmental barriers based on age, ethnicity, disability, economic status, gender, nationality, race, sexual orientation and transgender status. Equity-seeking communities identify barriers to equal access, opportunities and resources due to disadvantage and discrimination and actively seek social justice and reparation.

† The provincial definition of diversity states: the dimensions of diversity include, but are not limited to: ancestry, culture, ethnicity, gender identity, gender expression, language, physical and intellectual ability, race, religion (creed), sex, sexual orientation and socio-economic status.

Magazine Fund: Diversity Enhancement Stream

- The Ontario Creates Magazine Fund supports project applications from companies who do not meet the eligibility requirements for this program through a time-limited Diversity Enhancement. Companies with ownership that is racially diverse, Francophone, or otherwise meets dimensions of the provincial definition of diversity, may be eligible to apply for up to \$15,000 in project support. Please see the Appendix for details.

Ontario Creates welcomes applications from people with disabilities, people who are deaf, and people who have barriers to accessing technology. If you would like to request an alternative process or format for submitting an application, or request funds (up to \$500 per application) towards service providers to assist with your application, please contact the relevant Program Consultant a minimum of four weeks before the deadline.

Support for application assistance is also available to First Nations, Inuit or Métis applicants facing language, geographic and/or cultural barriers. Services may include, but are not limited to, assistance to create an account and navigate the Online Application Portal (OAP); transcribe/edit/organize/translate applications materials; complete and submit application materials.

Ontario Creates is committed to fostering respectful workplaces in all sectors and companies we support. Please see the [Ontario Creates Program Policies](#) for more details.

The profit-participation share of the partners should be in appropriate proportion to the ownership of the project and should conform to standard industry practices. Please note that preference may be given to projects that are substantially owned by Ontario-based organizations. If you are considering working with a partner, please contact Ontario Creates in advance of your application.

Group Projects

Projects involving a number of magazine publishers are eligible. Each magazine publisher involved in the group project must meet all eligibility criteria. Each applicant must submit a complete application identifying their specific roles and responsibilities and referencing the other publishers attached to the project.

³ For the purposes of defining a newspaper, the Ontario Creates Magazine Fund will use the criteria established by the Department of Canadian Heritage for their Canada Periodical Fund:

| • Unbound | 3 points |

One lead applicant must be identified as the key contact for all communication regarding the application. Ontario Creates must be contacted at least four weeks in advance of submitting a group application to review the proposed project.

6. Eligible Projects and Activities

A publisher may submit an application for either one specific magazine title **or** for a group of magazines the applicant publishes.

Publishing companies who own **more than one title** may submit up to two applications. The total requested funding amount cannot exceed the Total Funding Available per Applicant company (see the Table on page 10).

Group publishers are responsible for ensuring that a maximum of two applications are submitted to the Magazine Fund. As above, the total requested funding amount of the two applications combined must not exceed the Total Funding Available.

The project must:

- be an activity not already underway at the time of submitting the application **or**, if an existing activity already in progress, demonstrate how funding would enhance the scope and impact of the activity (expenses incurred prior to the application being submitted are not eligible);
- be focused on driving sales and increasing publisher revenue in a tangible and measurable manner and/or improving operational efficiencies and productivity (expected return on investment is a key criterion for the jury in their review of the applications), or expected direct and positive impact on the Company's overall business strategy must be stated; and
- must be completed with a Final Report submitted by **February 16, 2024**.

Applicant companies that are receiving support for a specific activity through another Ontario Creates program are not eligible to receive additional support through the Ontario Creates Magazine Fund for the same activity.

Projects can include, but are not limited to:

- re-launch/re-brand projects;
- circulation projects – such as direct mail campaigns, request circulation development, insert cards, subscription renewal, promotional campaigns, newsstand projects;
- advertising sales projects – such as media kits or promotional material;
- a special issue or special section for an existing magazine that is a first-time issue or section for the magazine, which could also be produced in various formats, such as listings, directory, catalogue;
- a new magazine from an existing magazine publisher;
- redesign/upgrade of website;

- development/enhancement of online/mobile magazine formats;
- online marketing campaigns;
- podcasts, videos, webcasts;
- digitization of back issues;
- optimization of online content;
- exploration of alternate sales channels;
- international business development activities, including travel;
- enhancing internal workflow/backend processes, including CRM implementation; and
- development of a **digital transformation strategy/business plan**. As this is a competitive program, include as much detail as possible of how this plan would be researched, developed and implemented, and the expected outcomes.

Applicants are strongly recommended to contact your program consultant in the early planning stages to discuss your proposed project.

Special Note for publishers proposing circulation projects: While circulation projects by their nature often have a multi-year cycle, if Ontario Creates has previously funded a circulation project through the Ontario Creates Magazine Fund, a circulation project for this current round must be significantly enhanced and/or different to the previous one. You must ensure that you will be able to identify and report financial results unique to the specific circulation activity proposed in your application.

7. Budget, Financing and Timeline Requirements

A **budget template** has been created that **must be used** to provide the budget details for your project(s).

Eligible Project Budget Expenses

Eligible costs directly associated with the project must be included in the budget detail. Ontario Creates Magazine Fund can represent up to 75% of the total budget, with the remaining 25% of the total budget from the publisher and/or other funding sources including other government sources, and third party participation (such as retail partners).

Please note: budgets MUST be submitted on the excel budget template provided on the website and the OAP. No PDFs or alternate formats will be accepted. The template consists of two separate tabs: Project Budget, and Financing. The Financing template must be completed.

Funding from the magazine publisher should have an accompanying **letter of intent** indicating commitment to the project, supported by a letter from the bank or bank statement (a screenshot of the applicant company's online account is eligible) showing the ability to finance the portion of the budget indicated in the application. Funding from other sources should have an accompanying letter of intent.

Realistically valued "in-kind" services may be included as part or all of the 25% costs that must come from sources other than the Ontario Creates Magazine Fund.

If outside services are required for the project, please **include quotes** from providers and a rationale for their selection.

Ineligible Expenses

Expenses that are ongoing operational costs are not eligible. For a project which is an enhancement of activity already underway, expenses incurred to date are not eligible.

For digital projects and/or projects with digital components, capital expenses related directly to the project (i.e., hardware, software) may be included to a **maximum of 15%** of the total project budget.

Expenses incurred prior to the application being submitted are not eligible. The only **exception is costs related to the development of a digital transformation strategy/business plan**, or components thereof, that is the foundation of the application. If the application is not successful, Ontario Creates will not support these costs.

Ineligible expenses include costs associated with:

- salaries and wages of staff not directly related to the project;
- staff benefit costs;
- fixed overhead costs (such as machine costs: telephone, photocopier, computer); however, costs for long distance phone, paper costs, couriers and other expenses **directly** related to the project may be included;
- occupancy costs (rent or mortgage of facilities); and
- hospitality.

Ontario Creates Funding

Eligible applicants may apply for funding based on their level of **eligible sales revenue**.

Ontario Creates funding can represent a maximum of **75% of the project budget**. There are caps on the maximum funding levels based on the applicant company’s eligible sales revenue, which is defined for the purposes of this program as all magazine revenues including ad sales, subscriptions, and related brand extension of the core magazine business (i.e., events, website, television properties, content syndication).

Grants, funding and donations are not considered revenue for the purpose of this program and should not be included when calculating eligible sales revenue.

Publishers may apply for the following levels of funding, based on eligible sales revenue:

| Eligible Sales Revenues | Total Funding Available per Applicant |
|--------------------------|---------------------------------------|
| Over \$2,000,000 | (up to) \$75,000 |
| \$500,001 to \$2,000,000 | (up to) \$65,000 |

| | |
|------------------------|------------------|
| \$140,001 to \$500,000 | (up to) \$40,000 |
| \$20,000 to \$140,000* | (up to) \$35,000 |

* For publishers with eligible sales revenues of less than \$75,000, the funds requested should be proportional to sales, with the total request not exceeding 33% of eligible sales revenues and in keeping with 75% of total budget.

Section Three of the application form requires a breakdown of eligible sales revenue to assess the eligible maximum level of funding available to the applicant. Due to recent sales impacts as a result of COVID-19, the parameters for eligible sales criteria have been adjusted. Applicants have the option to base eligible sales on either the past 12 months or an average of eligible sales for the previous two fiscal years.

The number of applicants who will receive funding, and the amount of the funding received, is dependent on the total amount of funding for the program, and the quantity and quality of projects selected by the jury. This is a **competitive** application process. A jury of industry experts will review and recommend which eligible applications will receive funding from this program.

Applicants are expected to begin incurring expenses related to their project no more than 90 days following funding approval notification. Projects should be completed with all expenses incurred and all deliverables provided by the applicant’s final report date, and no later than February 16, 2024.
